Qualified researchers are invited to submit investigator-sponsored research (ISR) and General Research proposals, according to the guidance and instructions found on the Pfizer ISR portal at www.Pfizer.com/ISR. All proposals must be submitted via the ISR submission portal. An ISR proposal requesting Pfizer support (e.g., funding and/or drug supply) is not a guarantee of acceptance or approval of that proposal. Decisions on support for ISR and General Research submissions are made by the applicable Pfizer global review committee. A formal notification regarding the status of your application will be sent on or before the posted notification date. Pfizer support will only be extended upon the execution of an agreement. For any questions, please send an email to GlobalMedicalGrants@pfizer.com. A list of Oncology assets available for ISR proposals, including Areas of Interest, are available on www.Pfizer.com/ISR.
