## Independent Research Grants Application and Review Cycles

### Investigator Sponsored Research (ISR) & General Research

In order to provide an efficient and transparent review process for all new unsolicited Independent Research Grants, we are pleased to share the following application windows for 2024. Our commitment is to review all proposals and send out decision notifications by the notification deadlines below:

Submission Window	Notification Deadline
Sep 1, 2023 – Jan 14, 2024	April 12, 2024
Jan 15, 2024 – Apr 14, 2024	July 12, 2024
Apr 15, 2024 – Aug 25, 2024	November 22, 2024

#### Important notes for applicants:

- Please do not wait until the submission deadline to enter your request into the online portal. Plan to apply early to allow time for clarification questions and to ensure completeness.
- 2024 funding is limited and only the most scientifically important research proposals are likely to be supported.
- In addition to this process for unsolicited independent research proposals, Pfizer will continue to issue Request for Proposals throughout the year. If you are not already receiving RFP announcements, please sign up for RFP alerts here: [https://www.pfizer.com/about/programs-policies/grants/independent-medical-education/email\\_sign\\_up](https://www.pfizer.com/about/programs-policies/grants/independent-medical-education/email_sign_up)

Qualified researchers are invited to submit investigator-sponsored research (ISR) and General Research proposals, according to the guidance and instructions found on the Pfizer ISR portal at [www.Pfizer.com/ISR](http://www.Pfizer.com/ISR). All proposals must be submitted via the ISR submission portal. An ISR proposal requesting Pfizer support (e.g., funding and/or drug supply) is not a guarantee of acceptance or approval of that proposal. Decisions on support for ISR and General Research submissions are made by the applicable Pfizer global review committee. A formal notification regarding the status of your application will be sent on or before the posted notification date. Pfizer support will only be extended upon the execution of an agreement. For any questions, please send an email to [GlobalMedicalGrants@pfizer.com](mailto:GlobalMedicalGrants@pfizer.com). A list of assets available for ISR proposals, including Areas of Interest, are available on [www.Pfizer.com/ISR](http://www.Pfizer.com/ISR).
